THE TRIPLEPLAY PLATFORM

A TRUE AV/IT SOLUTION
DELIVERING ANY MEDIA TO ANY DEVICE

USES FOR DIGITAL SIGNAGE

ADVERTISING

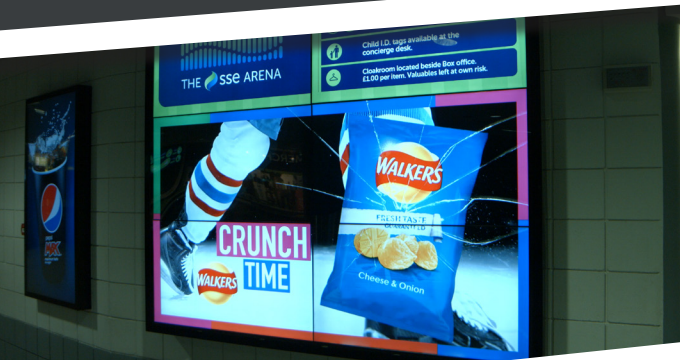

Our single platform solution allows the delivery of advertising, communications, promotions and news across any network to any TV screen. With integration into most standard EPOS systems we can activate live digital menu boards, and utilise interactive touchscreen displays and signage delivery to video walls.

WAYFINDING

Tripleplay's platform enables ingest and display of wayfinding information from 3rd party sources, enabling users to book meeting rooms, desk space, find a colleague or find their way around a venue or building. Furthermore, Tripleplay can deliver intelligent crowd management, redirecting on-site visitors to quickest routes, smallest queues and quietest areas.

DIGITAL COMMUNICATIONS

Tripleplay makes the distribution of communications, advertising and messaging to sites instantaneous. Key features include: Integrated IPTV, event triggers and control (including alarm system integration), calendars, weather, travel & transport, RSS, social media and many more.

TRIPLETV IPTV

Our IPTV headend platform, allows the capture and ingest of content from a wide range of sources, encoding and redistributing them across an IP network to digital signage screens, desktops, thin clients, smart TVs, mobile devices and set top boxes (STBs).

Headend ingest sources include:

- Digital QAM (Cable)
- Analogue SD and HD
- HDMI
- ASI
- IP Multicast
- HD Encoders
- IP Cameras
- Direct IP Feeds
- DVB-T/T2, DVB-S/S2, DVB-C, DVBS-CI
- Integration with DISH and Direct TV

Encryption:

- AES
- HLS-AES
- TPS-AES
- Samsung Link DRM
- Arris SecureMedia
- LG Pro:Idiom
- HDCP
- vSecure

IPTV

USES FOR IPTV

DESKTOP VIDEO

Available as a desktop app for Mac and Thin Client PC, Tripleplay's Media Video Player (MVP) provides online streaming and the ability to securely download media content, as well as enabling personal content upload and a full content management system. Tripleplay is also capable of delivering to a virtualised desktop (VDI) environment to help future-proof your investment.

MOBILE VIDEO

Using Tripleplay streaming and IPTV technology, the Tripleplay Mobile Media Application (MMA) is an integrated platform for sharing, uploading, viewing (online and offline) of media content. The app also comes with built-in messaging, forms and chat features. A safe, secure and controlled, high quality media delivery and communications platform.

ACCOMMODATION TV

With a constantly shifting in-room requirement Tripleplay has developed market leading features including bring your own device (BYOD) and bring your own content (BYOC), building control integration, smart app support and integration into most of the world's leading property management systems.
